Claim(s) discussed: 1, generally

Madduri, Foladare, both of record

Agreement with respect to the claims f) ☐ was reached. g) ☒ was not reached. h) ☐ N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicant was advised that Examiner remained firm with the position set forth in final Office action. Further amendment of the claims by Applicant is required (upon RCE or comparable filing) to overcome the applied prior art, specifically Foladare. Applicant suggested limiting protocol stack(s) and/or specific server applications used for connectivity and definition of "availability determinations" in network servers to further limit subject matter. Examiner warned Applicant to avoid situations involving new matter, and reported that narrowing of the claim language would necessitate further search in order to determine whether a rejection was proper at that time. Applicant and Examiner agreed that specific applications (e.g., e-mail, FTP, HTTP) introduce specific aspects of the invention not previously claimed.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

i) ☒ It is not necessary for applicant to provide a separate record of the substance of the interview (if box is checked).

Unless the paragraph above has been checked, THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP section 713.04).
